

Jennifer Corbin

Jennifer is an internationally recognized, authentic, grounded and light-hearted professionally-trained coach.

Success In Flight

Jennifer Corbin

Growing up in a traditional suburb of Chicago, Jennifer Corbin learned the importance of working hard, having clear values and building meaningful relationships. Her family and friends had no idea that the shy, geeky child that they knew would one day find herself making a profound impact on people all over the world. For over 20 years, she has empowered people to take incremental to monumental actions towards the things that are most important to them.

Commitment to Change

A family tragedy, the death of her younger brother, would cause her to start questioning in her early 20's what most people started to question in their 40's. Jennifer was one of the first coaches to receive formal training in 1996 from the founder of the coaching profession. She endeavored to find out for herself, through traditional and non-traditional means, what was most important in this world. On a steady path of uncertainty, but with a lot of gumption, she went from employee to top executive of a multi-million dollar company in less than 10 years.

Coach

As a Master Certified Coach, Jennifer's client list reads like an "International Who's Who." Working with professionals, small business owners, entrepreneurs, professionals, managers and executives, she inspires her clients to make values-based choices that will have the highest impact for sustainable success and ongoing satisfaction.

Speaker

As an authentic, practical and credible speaker, Jennifer delivers hope and inspiration to individuals, organizations and associations through her messages of breaking through barriers, self-imposed or otherwise. Audiences feel as though she's reading their minds and touching them in ways they've never been touched. She delivers strategies for change in a passionate, humorous yet practical manner.

Jennifer has empowered thousands of people in person in Australia, Dubai, Europe, Hong Kong, India, New Zealand, North America and Singapore, etc.

Author

Ms. Corbin frequently writes on personal, professional and business development. Three university-level textbooks were co-written by Jennifer Corbin in and published by John Wiley & Sons.

Success in Flight

Our programs, services and products are geared towards individuals and organizations seeking to:

- Work smarter and not harder
- Reclaim more energy and momentum to focus on what's most important
- Get current on initiatives, projects and commitments
- Wear fewer hats and delegate more to systems and people
- Better manage an over-complicated or non-existent business or personal life
- Stop missing out on opportunities because of being too busy working *in* the business rather than *on* the business
- Eliminate complaints from others about working too hard and neglecting other priorities
